This paper contains 100% recycled fibres, produced from a totally  
closed-loop process. The paper has a minimum of 10% recycled  
content of fibres that are recycled from other sources.

## Protecting People

In Afghanistan, Cobham's award winning video-compression technology is enhancing safety for bomb disposal personnel by increasing the range at which they can operate their specialist robots

At the Oscars, security on the approach to the red carpet was enhanced using the Cobham NetNode system

# Protecting Infrastructure

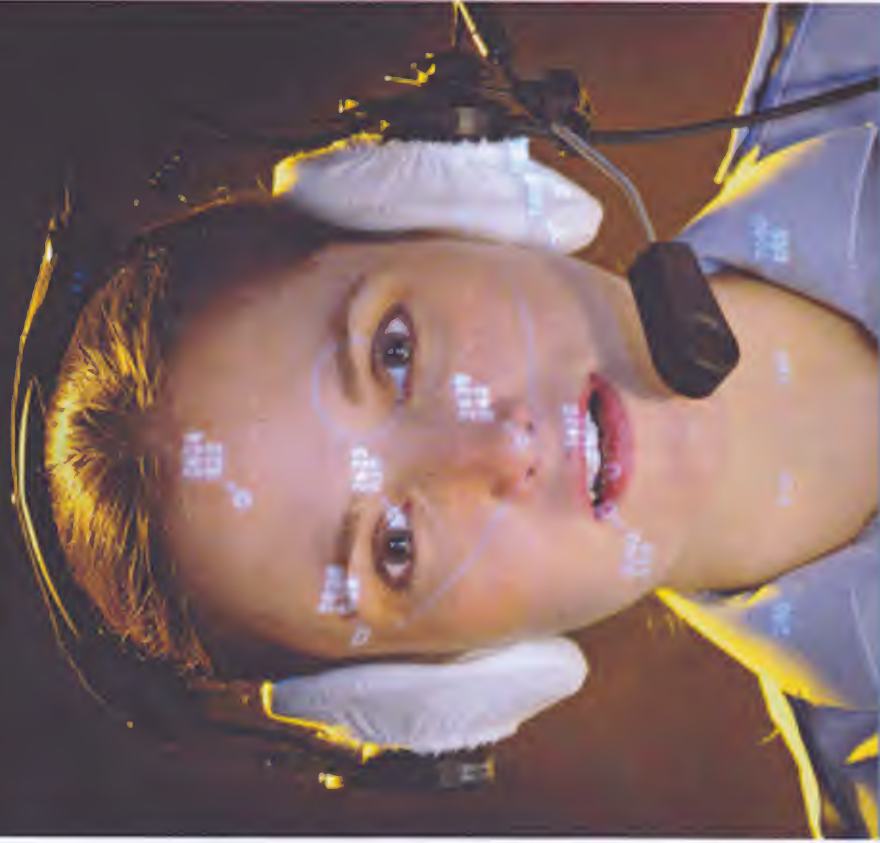

Cobham surveillance equipment is in service with 125 law enforcement agencies in over 80 countries, protecting people and vital infrastructure

During flash flooding in Avon, Cobham Surveillance's fire ground cameras enabled constant remote monitoring of critical water levels helping to protect lives and livelihoods

# Protecting Nations

Cobham's Air Traffic Management Systems are in service at more than 120 military and civil airfields, keeping the UK's airways safe every minute of every day

Every kilometre of Australia's coastline is patrolled by Cobham surveillance aircraft
